HOW TO CHOOSE YOUR Wedding Ring

Frank & co. specializes in making F color VVS1 clarity wedding ring collection

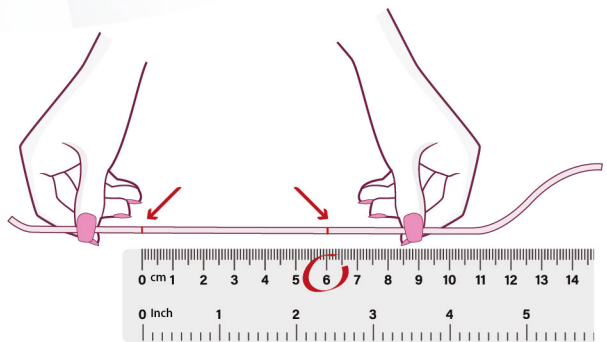

MEASURE YOUR RING SIZE EASILY AT HOME

Using String

This may not be the most accurate measurement, but it's one of the simplest ways.

1. Pick a string or floss and wrap it around the base of your finger

2. Mark it with pen and line that up with a ruler, take down the length in millimeters

3. Use the table below to know your ring size.

SIZE	CIRCUMFERENCE (mm)	DIAMETER (mm)
5.5	44.0	14.1
6.5	45.2	14.5
8	46.5	14.9
9	47.8	15.5
10	49.0	15.7
11	50.3	16.0
12.5	51.7	16.5
13.5	53.1	17.0
14.5	54.3	17.3
15.5	55.6	17.5
17	57.2	18.1
18	58.4	18.5
19.5	59.7	18.9
20.5	60.9	19.5
22	62.2	19.8
23	63.5	20.5
24	64.7	20.6
25.5	66.0	21.0
27	67.2	21.4
28	68.5	22.0
29	69.7	22.2

Tip: Repeat 3-4 times for a more precise measurement. Try not to force your string too tight. Measure your fingers at night when they're warm, fingers tend to shrink in the morning.
